

GET TO KNOW DENISE

Denise was the first in her family to graduate from high school or college, and becoming a nurse practitioner was the achievement of a long-held dream. Over a health care career that now spans three decades, her driving purpose has never wavered. “I love, love, love elderly people,” she says. “I empathize with their struggles and am very passionate about their health and well-being.” With AgeRight, she assesses patients, provides diagnoses and meets health care needs—doing whatever it takes to care for them while also supporting their families and facility staff.

“The rewards are amazing—just knowing my patients and their families feel good about the care, and that they trust me.”

DENISE AT-A-GLANCE:

- Nearly 30 years of experience as a nurse and Adult-Gerontology Acute Care Nurse Practitioner (AGACNP)
- Master of Science in Nursing degree from Walden University
- During the COVID-19 pandemic, led Indiana’s largest devoted COVID-19 unit
- Special expertise in dementia, dialysis, critical care nursing
- Has presented on topics including setting goals in hard circumstances, rising above a negative background and having empathy for the elderly
