

GET TO KNOW EVA-LYNN

Eva-Lynn's first nursing job was in a post-acute rehab facility, and she's worked in senior care ever since. After holding several nurse supervisor positions, she pursued further education as a nurse practitioner and was excited to join the AgeRight team. Among various responsibilities, she assesses, diagnoses and plans for the health needs of older adults, helps manage transitions between care settings and provides education, advocacy and support. Why does Eva-Lynn love what she does? "Simply, the patients," she says.

“ My greatest reward is in supporting residents at a time in their lives when they may be most vulnerable, and developing long-term provider relationships with them and their families.”

EVA-LYNN AT-A-GLANCE:

- Adult Geriatric Primary Care Nurse Practitioner-Board Certified (AGPCNP-BC)
- Ten years of senior care nursing experience, including seven as a resident care manager in a senior care facility
- Completed nursing school at the University of Colorado
- Master of Science in Nursing (MSN) degree from the University of South Alabama
- Grew up in Burns, Ore., a very rural area where nurse practitioners were the main source of medical care
- Loves to hike, kayak, camp and travel, and has gone scuba diving in caves with sharks
