

GET TO KNOW JASUDHA

While volunteering during high school to help seniors with meals and other services, Jasudha saw first-hand how vulnerable the population was. She became a nurse to fulfill what became her lifelong passion to take care of people who are fragile, elderly and underserved, and she has served in numerous positions across senior care and hospice. With AgeRight, she assesses, diagnoses and plans for the health needs of her patients, and provides education, advocacy, and support. “I just try to do my best, keep a positive spirit and open my heart to those I serve each day,” she says.

“ It’s always been my dream to make a difference and enrich the lives of seniors ”

JASUDHA AT-A-GLANCE:
