

GET TO KNOW JOANNE

Joanne's passion for delivering care to seniors started when she worked as a nurse's aide in a nursing home while she was still in high school. Inspired by the experience, she chose nursing as her career path, practicing in acute care for more than 20 years before becoming a nurse practitioner. At AgeRight, she helps new patients transition safely from the hospital and avoid going back, follows up on any medical concerns and is available to answer questions and offer support.

“ My greatest reward is witnessing the healing, acceptance or resolution that takes place within the lives of my patients.”
