

### GET TO KNOW LESLIE

While initially working with athletes doing therapeutic massage, Leslie discovered how much she enjoyed helping people achieve optimal health and happiness, and that she wanted to do even more. Over the course of her career as a physician assistant, her goal has always been to work with those who are underserved—and she feels seniors definitely fit that criteria. With AgeRight, she develops personal relationships with her patients, streamlines their transitions of care and most important, helps keep them out of the hospital.

**“**It's nice to be able to help our elders as they navigate the challenges of aging.**”**

### LESLIE AT-A-GLANCE:

- More than 10 years of experience as a Physician Assistant-Certified (PA-C)
- Master of Medical Science degree from St. Francis University
