

GET TO KNOW LINDSEY

A special bond with her grandmother is what propelled Lindsey Schaub into a career in senior care. To pursue that calling, she joined Marquis Companies as an intern in 2012, and after completing the administrator-in-training program spent five years as an assisted living administrator. “My direct experience in that facility helped me understand the needs of the resident population, and how to design a medical group to care for them,” she says.

Now as Clinical Services Manager for AgeRight Clinical Services, Lindsey leads a growing clinical team of physicians, nurse practitioners and physician assistants who serve patients in Marquis’ senior care facilities across the state of Oregon. She recruits staff, manages quality metrics and productivity and serves as a liaison between facilities and providers. “My greatest reward is in collaborating with the facilities and our AgeRight clinicians,” she says. “We’re creating efficiencies and reducing barriers to accessing care.”

Lindsey is a graduate of Oregon State University, where she earned a Bachelor’s in Public Health, with a focus on gerontology. Outside of work, she enjoys walking her two dogs, traveling and going on tasting excursions in beautiful Oregon wine country. She’s a frequent volunteer at Vital Life Foundation events, and actively supports its charitable partners.

“My greatest reward is in collaborating with the facilities and our AgeRight clinicians.”
