

GET TO KNOW SHARON

After a nearly 30-year nursing career that started as a nursing assistant in a long-term care facility, in working with AgeRight Sharon feels like she's coming back home. Her experience has included both acute and post-acute care settings, and she loves working with the geriatric population. As she makes her daily rounds, the first priority is getting to know her patients and understanding the circumstances that brought them here. "I tell them what an honor it is to help prevent rehospitalization, with the goal of returning home," she says.

“ I love being part of the recovery process for my patients, and I enjoy seeing their progress from week to week. It's a great job!”

SHARON AT-A-GLANCE:

- 28 years of nursing experience in a wide range of settings
- Graduated as a family nurse practitioner-board certified (FNP-BC) from Bradley University
- Holds a Masters in Nursing Education degree from Walden University
- Taught in community nursing programs for five years
- Enjoys running, gardening and crafting –“I don't sit still well.”
- Divorced her high school sweetheart after 16 years—then eventually married him again, and celebrates both anniversaries
- Frequent volunteer with Cascade Medical Team on mission trips to Guatemala
