

GET TO KNOW SUZY

Suzy has been a nurse practitioner for nearly 20 years, and a nurse for almost 30, and has always known caring for people is what she's supposed to be doing. It was through her father's encouragement while he was on hospice that she was inspired to go back to school for a master's degree, and in the years since she's focused on chronic disease and geriatric patients. With AgeRight, she primarily manages all aspects of care for residents in long-term care facilities, and helps educate facility staff on clinical issues.

“ The greatest reward is in assisting this very fragile population, and making a difference to the residents, families and staff.”
